This form was prepared as part of a research/survey/nomination project in 2011-2012 funded by a HRDP grant from the State Historical Society of Iowa for the nomination of the Washington Downtown Historic District. The project was primarily structured to develop the nomination for the downtown, with additional research on each building documented on an Iowa Site Inventory form. The information below is taken from the table in the August 2012 draft of the nomination, with additional information documented on the property and photographs in the following sections.

7. Narrative Description

This is a two story brick commercial building with two storefronts and a narrow two-story side addition built around 1905 for additional bakery space. The two main storefronts share a recessed entry which has textured iron flooring. The two entry doors are metal clad door with nine-light windows and are each set on an angle. Each storefront has a large single light display window with a decorated cement board bulkhead and a four light transom. At the right of the storefront is an entry to the second story. There is a transom over each door; the primary entry transoms are infilled and have small air conditioners. The secondary door's transom is glass. The addition to the east has a similar storefront with an entry at the left with transom window and large divided storefront window. The second story has an oriel window on the left, which has two one-over-one-light double-hung windows facing the street, and one narrower one-over-one-light double-hung window on the projections at either side. On the right side of the oriel window, there is a one-over-one-light double-hung window with a brick sill and
a segmental arch brick lintel. The cornice is composed of five courses of slightly stepped out brick. The second story of the east addition has a similar oriel window with two one-over-one-light double-hung windows on the south and a narrow one-over-one-light double-hung on either side. The cornice is similar but different than the main building, with two course of brick creating "brackets."

8. Narrative Statement of Significance

The Vienna Bakery appears to contribute historically and architecturally to the Washington Downtown Historic District. The Vienna Bakery was built in two phases, the main building around 1884 and the east side addition for additional bakery space around 1905. Thus, the current form of the building dates to occupancy by Vienna Bakery. The east addition was then later partitioned into a separate space.

The property was purchased in March 1883 by Calvin Beard from Leonard Smouse. It was the first time a described portion of the lot, rather than the entire lot, was sold. Beard transferred the property a year later, in May 1884, to J.H. Young. James H. Young was president of the Washington County Savings Bank from 1884 to 1899. The building can be seen on the earliest Sanborn map in 1885. It is labeled as offices and has an exterior stairway on the east side. Either Beard or Young may have constructed the original portion of this brick building. Young transferred the property to E.D. & Ella Eaton in September 1892. E.C. Eaton is listed in the 1894 city directory as "restaurant, 114 E. Washington". That same year, Eaton transferred the property back to J.H. Young, and it was sold to Winfield Smouse in October 1901. The 1902 Sanborn maps indicates a music store in the building, and the interior wall on earlier maps is gone.

The Vienna Bakery occupied the building by 1906 (Washington Journal); their sign can be seen here on a postcard view of East Washington Street. Another postcard view show the interior without the interior wall. The 1909 Sanborn maps identifies the use as Candy/Bakery, and the 1910 directory confirms The Vienna Bakery is here. The 1909 Sanborn map also shows the construction of the narrow two-story addition on the east side, which was used as bake shop. They moved by 1913 to a new location. *Evening Journal*, April 26, 1913, 42 – ad – The Vienna – E. Dean – proprietor – bakery goods, candy, ice cream, and lunches – new home – built to fill need for refreshment parlor – plan to add luncheonette counter – photo of interior

The 1917 Sanborn map shows the oriel window on the west portion (114) with the narrow east addition as 114A. Chines (sic) Laundry is the occupant of 114 and a music store is in 114A. By 1926, the address shifts from 114 to 116 E. Washington and 114A to 118 E. Washington. The 1910 directory lists Saling Music Store at 118, which was likely originally in the building to the east. A short article in the *Washington Journal* notes “Winfield Smouse completed the work of moving what is left of the old New York Store stock to the Saling music store room on E. Washington street.” It may have moved here with the demolition and construction of the new building to the east by 1917.

The 1926 telephone directory has Mayo's Home Bakery in the building at 116. In 1935, the directory lists Bidwell Plumbing, Broadgate Electric, and Dodder Painting here. Modern Appliance was here in 1941 (directory), and Bence's WWII Surplus Store in 1946 (Washington Journal). Telephone directories show Dew Drop Inn and Mills Cash Grocery (1952), Mills Cash Grocery (1956), and C.M. Hayes Insurance and The Dinette (1964).

Per the 1931 Sanborn map, the addition had been divided into a separate store with an address of 118 E. Washington. McKay's Music Service is listed at 118 E. Washington in 1935 (city directory), and Sorden's Music Shop is here in 1937 and 1941 (Washington Journal & 1941 city directory). By 1946, Sorden Music moved west to the corner at 122 S. Iowa.

The current occupants are Earthly Blessing Gift Shop (west half of original building - 114), Denim & Pearls, a consignment shop for women's clothing (east half of original building - 116), and The Hair Bar (addition to building - 118).
