Comments:

Evaluated by (name/title):  ___________________  Date:  ________________
This form was prepared as part of a research/survey/nomination project in 2011-2012 funded by a HRDP grant from the State Historical Society of Iowa for the nomination of the Washington Downtown Historic District. The project was primarily structured to develop the nomination for the downtown, with additional research on each building documented on an Iowa Site Inventory form. This building was demolished during the course of the project.

7. Narrative Description

The building was demolished in 2011 following a partial collapse during remodeling of the 207 half in 2008. It was a two story-brick building with two storefronts. The building exhibited features representing early 1850s-1860s construction in Washington, with pilasters at either end of the building and dividing the two halves. The 209 (south) half had a remodeled store front of faux brick and glass. The primary entry was on the right, but slightly recessed. The aluminum and glass two light display windows slanted back into the building slightly to permit a sloped concrete entry. The bulkhead below the display windows were covered in faux brick. The 207 (north) half had a remodeled store front of aluminum and glass. On the right side was an secondary entry to the second floor, and the primary entry door was next to it, but slightly recessed. The aluminum and glass two light display windows slanted back into the building slightly to permit a sloped concrete entry. Each half had three double-hung windows on the second story, with the segmental arches remaining intact on the 207 half. The 207 half also retained two-over-two-light double-hung wood windows. The brick patching on the 209 half shows alterations to the top of the windows and center opening from a entry to window. Brick corbel rows stepped out to the top of the building, and the center of the brick cornice line had a dogtooth pattern.

8. Narrative Statement of Significance

Since the building has been demolished, it is not eligible for the NRHP.

The building appears on the 1869 Bird's Eye View drawing. Architectural features of the building suggest construction in the 1860s or late 1850s. The building may have originally been three storefronts wide, including 211 S. Marion, which was later remodeled separately (92-00570).

Sanborn maps and advertisements show the following uses in 207: in 1885, an ad in the Washington Press indicated The Fair Store owned by R.A. McCall at this location, selling dry goods and millinery per the 1885 Sanborn map. There is an opening to 205 to the north. On 1897 map, the space is vacant; in 1902 there is a jewelery store there; in 1909 it is the Star Movie Theater; by 1917 it is a meat market; ads indicate that Quality Feed & Seed Co. are located at this address in 1932, and Ramseyer's Hatchery in 1935. By 1941, The Gambles Hardware Store and Foster Radio Service share this address. In 1946, Earl May Seeds Store is the occupant. In the 1964 city directory, Payne's Radio-TV &
Appliance is there. At the time of the accidental collapse in 2008, the owner and occupant was Alfonso Ramundo, proprietor of La Tienda de la Cruz, a Mexican grocery.

Sanborn maps and advertisements show the following uses in 209: in 1885 the map lists a harness shop; in 1897, there is a cabinet shop there with offices on 2nd; in 1902 it is a grocery warehouse, possibly for the grocery in 211 as a door has been added toward the rear which gives access to the next building. On the 1909 and 1917 maps, printing occurs in the building, and the city directory says the Washington Democrat newspaper is located there. The editor and publisher of the Democrat is Alex Miller, a unsuccessful candidate for governor of Iowa in 1926, and the husband of Viola Babcock Miller, Iowa's first female Secretary of State and founder of the Iowa Highway Patrol. Printing is still located in this building on the 1931 Sanborn map. Ads from the Washington Journal in 1932 and 1934 show Burton's Inn, and then Burton's Cafe here, followed in the 1935 city directory by Chandler's Cafe. The 1941 city directory shows Pioneer Hybrid Corn at this location, and telephone directory listing in the yellow pages says that Earl May Seed Company is here in 1952 and 1956. In the 1964 city directory, the Washington City Extension Service is located in the building, where they remained until 2006.
